WRITING

I think that smart phones are very helpful and useful. You are always have any kind of information in your pocket! This is really cool technology that helps a lot!

You can also text your friends in any time you want to! You can play games in free time.

The smart phone already changed the world. And now even in school we have chats, groups. We can send something to everyone in one tap.

There is a lot of new features that can be added in phones, but mostly it is cool technology that in near future will be in every home on hands of everyone.
